MADE IN ITALY

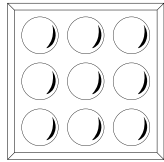

IoT TECHNOLOGIES MEET TECHNO CORE PRODUCTS

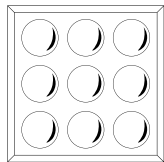

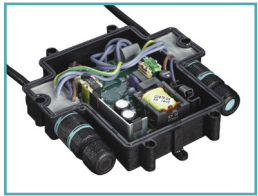

Techno supports device manufacturers and system integrator with specially developed IoT ready connecting solutions enabling you to get your IoT projects done quickly, easily, and securely.

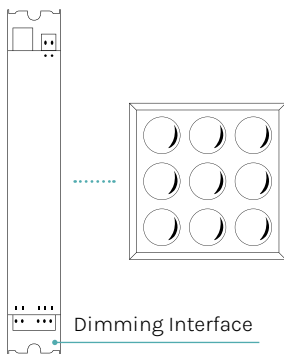

SENSOR INTERFACE

ELECTRONIC-DRIVER INTERFACE

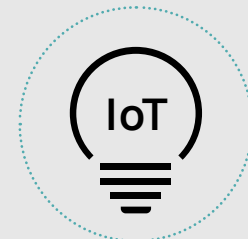

DIMMING INTERFACE

TECHNO IoT PLATFORM

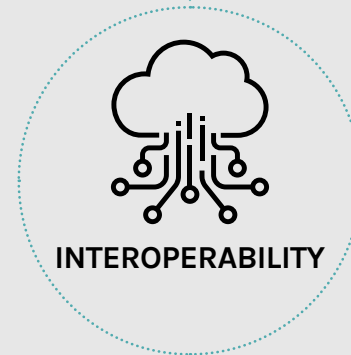

The best option for your business

Techno offer flexible solutions to satisfy both wired and wireless ecosystems. We integrate mechanical and electronic components, including customized ones, able to adapt to different technical requests and application needs.

+ RELIABLE CONNECTION
SECURE CONNECTION

+ FLEXIBLE CONNECTION
SCALABLE CONNECTION
LOW POWER
AND DATA SOLUTION

TECHNO IoTH ECOSYSTEM

Smart boxes and connectors "IoT Ready"

High-quality and water-dust proof (up to IP68) connecting solutions "IoT ready" thorough tube or flat joint IoT boxes, compact pluggable IoT current distributors and flexible junction IoT boxes.

The power of IoT combined with the design of Techno solutions to manage a variety of sensors, controllers, actuators for motion, light and HVAC and so on.
