**Additional Information:** See the UL Online Certifications Directory at [www.ul.com/database](http://www.ul.com/database) for  
additional information

Only those products bearing the UL Recognized Component Mark should be considered as being covered by UL's  
Recognition and Follow-Up Service.

The UL Recognized Component Mark generally consists of the manufacturer's identification and catalog number, model  
number or other product designation as specified under "Marking" for the particular Recognition as published in the  
appropriate UL Directory. As a supplementary means of identifying products that have been produced under UL's  
Component Recognition Program, UL's Recognized Component Mark:  may be used in conjunction with the required  
Recognized Marks. The Recognized Component Mark is required when specified in the UL Directory preceding the  
recognitions or under "Markings" for the individual recognitions.

The final acceptance of the component is dependent upon its installation and use in complete equipment submitted to UL  
LLC.

Look for the UL Recognized Component Mark on the product.

William R. Carney, Director, North American Certification Programs  
UL LLC
