

Transportation

Maximum usability and reliability

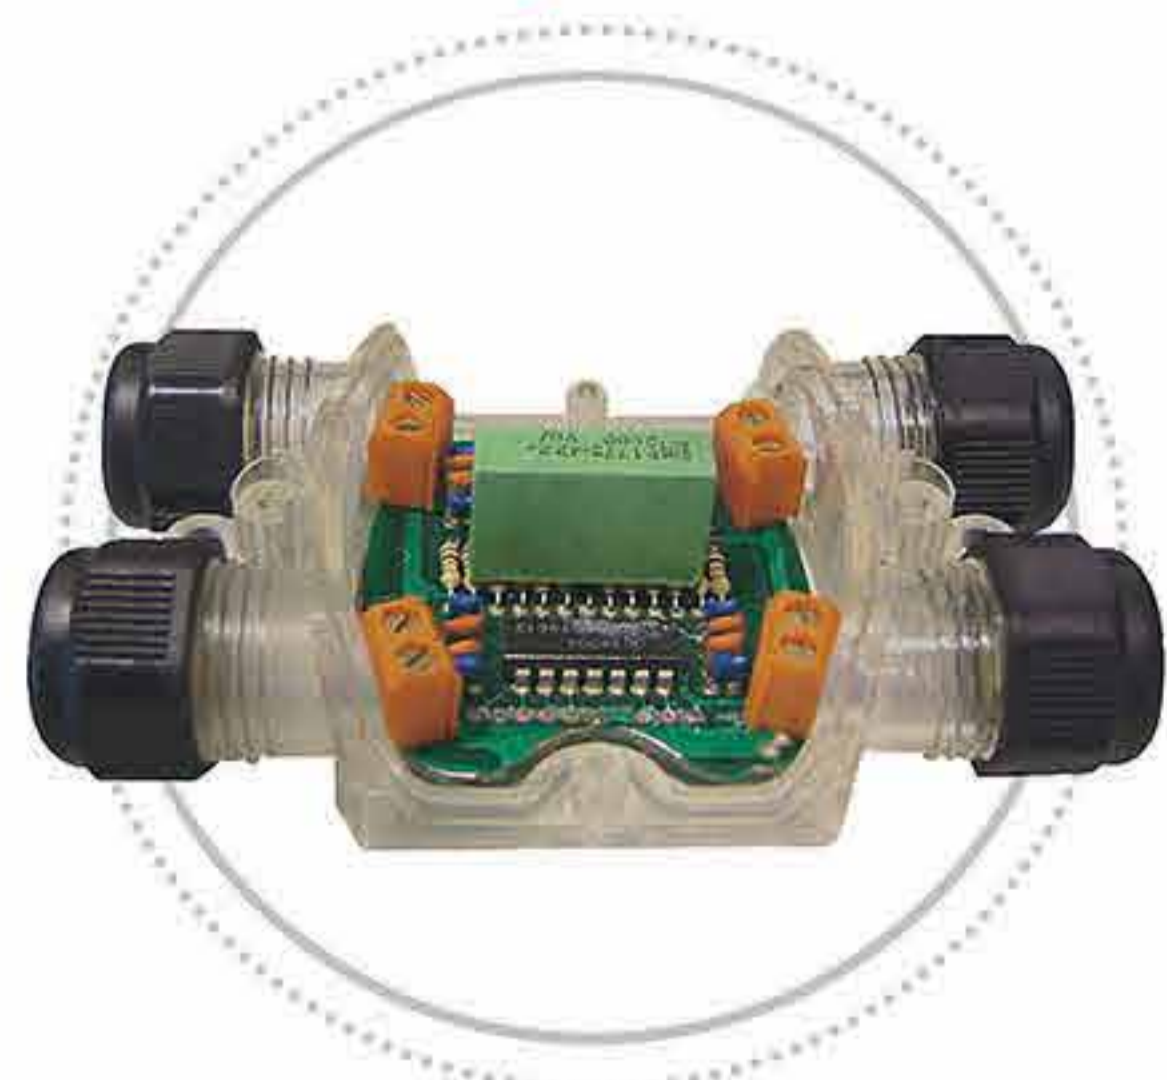

TH210: protects electronics

Large range of IP67/IP68 housings for electronics equipment or electrical terminals and assemblies.

Compact Design

Small size junction boxes are ideal to protect electronic and electrical systems and installation in tight spaces.

Maximum Versatility

IP68 Junction boxes install electronic circuit boards, sensors and terminal blocks to be water-proof.

Care of details (IP68)

Twin-injected gasket with perfect mechanical and chemical adhesion ensures safety and avoids errors by installers.
