ELECTRICAL  
CONNECTORS IP68  
ANTICONDENSATION

## Process Plants IP68 solutions for most demanding applications

### TH392: Simplify the job

Compact and fast connecting  
solutions **reduce**  
**installation costs.**

#### Quick and safe installation

Innovative design, few  
components and intuitive  
wiring systems ensure  
error-proof and quick  
installations.

#### Extend the usability

The connectors are of circular  
cross section with a greater  
number of poles in less  
space compared to traditional  
linear terminal blocks.

#### Wide range of products

Smart compact terminal  
blocks with fast wiring  
systems (3-way/4-way) with  
minimal cable forming  
required.
